Highlights

(Patented) Super Lift & Cut

The first blade raises each hair while the second blade comfortably cuts it below skin level, for a really smooth result.

Anti-slip grip

The grip's unique, ergonomic design and anti-slip materials make it easy to shave with precision and comfort.

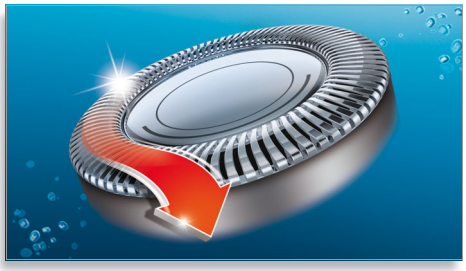
Aquatec wet and dry

The AquaTec seal on the shaver makes it 100% waterproof. Use it in the shower with your favorite shaving gel or foam for extra skin comfort. Naturally you can also shave dry for convenience.

Cordless use only

An efficient, powerful lithium-ion battery gives you more shaves per charge. Charge it for an hour and you'll have up to 60 minutes of shaving time – that's around 20 shaves. The shaver automatically adjusts its power to suit the way you shave, so your actual shaving time may vary. Charge it for 3 minutes and you'll have enough power for one shave.

Skin protection system



Rounded low-friction heads adjust to the contours of your face to limit skin irritation.

SkinGlide system

The low-friction SkinGlide shaving surface slides smoothly along your skin for a close, easy shave.

Pivoting and Flexing Heads

Flexing heads stay in close contact with your skin, while the pivoting neck adds an extra dimension of movement – all giving you a close, fast, and comfortable shave.

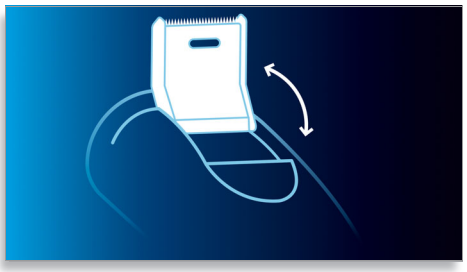
TripleTrack heads

TripleTrack heads with three shaving tracks cover 50% more skin surface at a time., while comfortably shaving both long hair and stubble.

Water-resistant

For easy cleaning, and wet & dry use

Pop-up trimmer



Complete your look by using the Pop-up trimmer. Perfect for maintaining a moustache and trimming sideburns.
